

ENVIRONMENTAL SCIENTIST/WETLAND SPECIALIST

Wright Water Engineers, Inc. (WWE) is seeking an experienced and motivated professional for our Denver office to perform and direct our wetland delineation, permitting, and mitigation projects (see job description below).

WWE is a respected and award-winning consulting engineering firm providing full-service water resource, environmental, and civil engineering expertise from three Colorado offices (Denver, Glenwood Springs, and Durango). The firm was founded in 1961 and has a staff of approximately 45 people who include senior level engineers, biologists, chemists, geologists, hydrogeologists, hydrologists, and scientists. We work throughout the United States and have an active client list of more than 400 clients. We offer full benefits including health, dental, medical reimbursement insurance, and matching 401K. More can be found on our website: www.wrightwater.com

Job Description

Responsible for wetland delineations, permitting, and mitigation. Specific assignments may include:

- Field delineations in accordance with the most recent USACE Wetland Delineation Manual.
- Plant and wildlife surveys.
- Preparation of Section 404 permit packages.
- Drafting or assisting with wetland mitigation design plans.

Additional assignments may include:

- Assistance with macroinvertebrate studies.
- Water quality sampling.
- Preparation of stormwater management plans.
- Field visits to construction sites to assess BMPs.

Job Requirements

- B.S. in Wetland Science, Environmental Science, or closely related field.
- Formal training on the application of the USACE Wetland Delineation Manual.
- At least two years of direct experience in wetland delineations in Colorado with additional experience in mitigation/restoration planning desired.

Required skill sets include:

- Plant taxonomy.
- Good technical writing skills.
- Job will require some work in the office as well as work in the field.
- Ability to use GPS and GIS desired.
- Ability to communicate clearly and professionally with clients and government officials.
